- **Physics** – Applied Mathematics 40S Precalculus. Senior 4 Physics 40S recommended.
- **Psychology** –Applied Mathematics 40S or Precalculus 40S.

High school transcript self-report of grades:

- Students have the opportunity to self-report their transcript information, which Acadia will use to assess admission to degree programs. High school applicants must report all academic Grade 11 and Grade 12 courses along with all available midyear or final grades. Information provided will be automatically assessed and applicants will be advised of their admissibility to Acadia.
- Offers of admission based on self-reported transcript information will be verified with the final official transcript from your high school or provincial Ministry of Education. You should arrange for your final transcript to be sent to Acadia at the end of June. All applicants must have self-reported their course information accurately and must maintain their academic admission average in their final results; otherwise the offer of admission may be withdrawn.

Early fall admission:

Students may be considered for early fall admission before their first set of Grade 12 marks is available. Students applying for early fall admission should include their final Grade 11 marks and a school-approved list of courses they are taking in Grade 12 (both semesters) with their application. Grade 12 courses must be consistent with the guidelines listed above.

Entrance Scholarships:

An admission application and all required supporting documents for admission must be received in the Admissions Office before March 1 in order to be considered for an entrance scholarship.

Costs for first-year full-time students (2021-2022)
